Choose **eakin**[®] seals
for a secure, unique
fit for every stoma

#1
for mouldability¹

eakin[®] 

Choose **eakin**[®] seals for a secure, unique fit for every stoma

Recent testing has shown **eakin**[®] seals are:

- The best for mouldability even for those with a lower dexterity¹
- The best for retaining that moulded shape¹ once applied¹

For an ostomate this means the seals are easier to use

- Easy and quick to mould and create a secure fit
- Require fewer moulds to achieve a secure fit
- Stay in place once moulded
- Do not try to return to form and potentially create gaps during use

Up to

4x

more absorbent
than competitors²

Choose **eakin**[®] seals
to help stop leaks
and protect skin

eakin[®] 

Choose **eakin**[®] seals to help stop leaks and protect skin

93% of ostomates worry about leaks occurring.³

A seal combining high levels of enzyme inhibition and the highest level of absorption **offers the greatest protection against moisture associated skin damage.**^{2,4}

Give back **confidence** with **eakin**[®] seals - **#1** for absorbency while inhibiting enzymes.²

Choose **eakin**[®] seals for their skin friendly properties and comfort on body

99%

of nurses say they prevent skin irritation⁵

Choose **eakin**[®] seals for their skin friendly properties and comfort on body

99%

of nurses say they prevent skin irritation⁵

Plus **90%** of nurses agree eakin **Cohesive**[®] seals are good/excellent at treating excoriated skin compared with other products they have tried.⁵

94% of users rated eakin **freeseal**[®] as comfortable to wear.⁶

Each seal contains a small number of vegan friendly ingredients, all of which are specifically chosen to be kind to skin.

“As I wear a convex pouch I am always conscious of it being more noticeable under clothes especially when adding a seal beneath it, but the flatter profile of eakin **freeseal**[®] gave me more confidence as well as providing the required protection.” — **Wendy, UK**

“After experiencing leakage and multiple bag changes a day I can not tell you the difference the seal has made. I am using eakin **Cohesive**[®] slims, my bag lasts up to 6 days and my skin is healing – thank you so much!” — **Gracie, USA**

“I didn’t leave the house for 6 months due to leakage issues. But you sent me a sample of the **eakin**[®] seal and I am getting 3 days of wear!” — **Madison, USA**

“With the seals there’s no more leaks, output is not getting onto my skin, it’s making sure my baseplate is secure, it has just made life so much easier.” — **Ian, UK**
